New Jersey Department of Environmental Protection
Economic Growth and Green Energy (EGGE)

A strong economy is built upon a healthy environment. The Office of Economic Growth and Green Energy was created to provide a proactive team to assist in creating pathways to support sustainable economic growth and innovation.

Mission - EGGE exists to provide proactive outreach, foster innovation and deliver resources which enable stakeholders to balance environmental stewardship, economic growth and social equity in order to grow New Jersey’s economy in a sustainable manner.

Our Customers - EGGE works with all drivers of economic growth in our state: Business and Industry - large, small and entrepreneurial, municipal, county and state government, non profits and academia.

EGGE has identified five major objective areas to accomplish its mission:
- Support the continued development of Green Energy/Clean Industry
- Provide Resources on Sustainability
- Siting Responsible and Sustainable Economic Growth
- State Government Sustainability
- Fostering Innovation
