To the Fairleigh Dickinson University Vancouver Class of 2011,

On behalf of the students at the College at Florham, I want to welcome you all to the FDU family. It is amazing to see this University grow and be deeply invested in its mission to become the true leader in global education. It must be amazing to be the first students to attend a new campus, and be an important part of our Fairleigh Dickinson history. I have had the privilege of visiting not only our campuses in New Jersey, but also in Wroxton, England, and each campus offers such a unique learning experience that will only be improved by the addition of the Vancouver campus. Though we are far apart, we are never limited in sharing our knowledge and experience from one another. It is through that exchange that we not only grow as world citizens but we improve the educational quality of this University as well.

Above all we are just students who all share the goal of self-improvement. It is the exact reason for higher education to exist. As you begin to start your educational career keep in mind that self-improvement is not only achieved in the classroom, but through experience, and interaction. It is a big responsibility to have, but you all will set the precedent for the community at the Vancouver campus. Make the best of what each of you have to offer and the community you create will make Fairleigh Dickinson University that much better.

From the Student Government Association at the College at Florham, on behalf of our community here, we wish you the best of luck, and look forward to working with you soon.

Best wishes,

David Storicks
President
Student Government Association
