**Course Description:**
This course will provide students the opportunity for individually designed internships in the criminal justice field. Some of these may include law enforcement, court administration, the legal profession, private security, corrections & probation, juvenile justice, crime victims’ advocacy and child protection.

**Prerequisites (If any):**
CRIM1101, CRIM1102

**Goals and Objectives:**
The criminal justice internship program will provide students with work experiences and professional skills to utilize and supplement their classroom education. Students will:

- observe and perform specific business tasks.
- network and be exposed to criminal justice work processes, interactions, values and culture issues.
- become familiar with career opportunities, entry procedures/requirements, and the skills necessary for success in their area of interest.
- prepare effective resumes.
- improve their interviewing skills.
- write journals describing their daily activities.
- conduct research of their mentoring organization.
- summarize the knowledge and skills learned during their internship
