ONLINE PROGRAMS (BA / AA)
Fall 2011 Semester (12 and 10 Week Courses)

Note: The “requirement fulfilled” is listed for each course. This is intended as a guideline when selecting courses that will fulfill your remaining degree requirements. Most courses for which you have not received credit can be used to fulfill “free elective” requirements.

12 Week Courses: September 25 – December 17

ART 1071.E3D  Film & Society       (3 credits)  R. Medaska
Requirement fulfilled: Humanities
The film from the earliest years to the present, as a reflection of the social, political and psychological ideas defining the modern world; the film as an art form.

ART 2211.E1D  History of Photography: Daguerreotype to Digital  (3 credits)  N. Epstein
Requirement fulfilled: Humanities
This course follows the history of the early pioneers of photography and traces the technical advancements up to and including modern digital imaging. In addition to the historical aspect of the photographic medium, the course will also cover the basic elements of design, composition, and camera manipulation that go into the creation of a good photographic image.

BUSI 2645.E1D  Principles of Management     (3 credits)  J. DePalma
Requirement fulfilled: Business / Leadership Studies Admin Cert
An introduction to management concepts and the role of management in business and other organizations. Designed for potential and new managers, the course focuses on the essential managerial functions – planning, organizing, motivating, communicating, directing, decision making, staffing – and how they relate to one another. A learner-centered, problem-based approach is used with an emphasis on the development of skills necessary to achieve success in a wide variety of organizations in the public and private sectors. Students will gain a solid grasp of how effective managers coordinate human resources and their own skills to contribute to the mission of an organization.

COMM 2101.E1D  Professional Communications     (3 credits)  P. Durso
Requirement fulfilled: Communications / Advanced Writing / Public Speaking Sub.
Study of and practice in major oral and written communication techniques and modes appropriate to professional communicators and others. Emphasis on group dynamics, collaborative presentations, research, audience analysis, effective writing and speaking styles.

COMM 2140.E1D  New Technologies in Communications    (3 credits)  E. Steiner
Requirement fulfilled: Communications / Business &Technology / Public Speaking Sub.
An examination of new and incipient technologies in the communications industries; the Internet, E-Publishing; video conferencing and the development of “electronic villages”; the expansion of asynchronous and synchronous corporate training programs; technology as a communications aid for handicapped individuals; social, economic, and cultural ramifications of technological changes in communications.

COMM 3312.E1D  Mass Media: The Home Front     (3 credits)  A. Bugallo
Requirement fulfilled: Communications / Humanities / Social Science / Public Speaking Sub.
This course is designed to provide students a forum through which they will experience authentic examples of the major media of mass communication during World War II as presented to American audiences on the home front. Through examples of original broadcasts of newsreels, feature films, short subjects, print media, animation and radio, students will gain an understanding of mass communication and how it was designed to influence, inform and entertain its intended audience, the American public.

CORE 1006.E3D  The Global Challenge     (3 credits)  E. Batha
Requirement fulfilled: University Requirement
The first course in the revised University Core program uses the benefits of distance learning to provide students with tools and perspectives for confronting issues faced by people living in an increasingly interdependent and interconnected world. As they investigate challenges to humankind, such as those raised by environmental degradation, modern warfare and deadly infectious diseases, students will interact with classmates and faculty members. Special attention will be given to the implications of the scientific method as compared with cultural, aesthetic and ethical approaches to understanding the world around us. Through access to sources on the Internet, students will learn how to evaluate and integrate information.

Co-requisite: ENGL 1111 or equivalent
Fall 2011 Online Courses

CORE 1006.E4D The Global Challenge (3 credits) K. Vehrkens
Requirement fulfilled: University Requirement
The first course in the revised University Core program uses the benefits of distance learning to provide students with tools and perspectives for confronting issues faced by people living in an increasingly interdependent and interconnected world. As they investigate challenges to humankind, such as those raised by environmental degradation, modern warfare and deadly infectious diseases, students will interact with classmates and faculty members. Special attention will be given to the implications of the scientific method as compared with cultural, aesthetic and ethical approaches to understanding the world around us. Through access to sources on the Internet, students will learn how to evaluate and integrate information.

Co-requisite: ENGL 1111 or equivalent

CORE 2007.E4D Perspectives on the Individual (3 credits) D. Epstein
 Requirement fulfilled: University Requirement
Aspects of our sense of being an individual are explored through situations in literature, art and theory: the individual and her body (the effect of genetics); the individual and the state (The Handmaid's Tale); the individual and death (Gilgamesh); the individual and integrity (Jesus, Buddha, Socrates); the individual and nature (Pico and Wordsworth); the individual and his internal conflicts (Freud); the individual and prejudice (The Autobiography of Malcolm X and Night).
Prerequisite: CORE 1006

ENGL 1111.E4D Literature & Composition I (3 credits) L. Elfers-Mabli
Requirement fulfilled: University Requirement (English Composition I)
Principles of grammar, rhetoric and style; expository writing; introduction to literary forms, especially short fiction. Prerequisite to all other English courses.

[ENGL 1112: see 10 week courses.]

ENGL 2227.E2D Cyber Voices: Internet Literary Communities (3 credits) L. Elfers-Mabli
Requirement fulfilled: Humanities
CyberVoices students will visit various Internet literary communities, including electronic magazines (e-zines), chat rooms and Web rings and explore the dynamics of these writer communities and read their members' short fiction, poetry, and essays. Through assigned readings, students will begin by learning the fundamentals of each literary genre so that, when reading cyber literary works, they will do so with an adequate level of sophistication and discrimination.
Prerequisite: ENGL 1112 or equivalent

ENGL 2237.E1D Italian American Literature: In and Out of the Kitchen (3 credits) C. Miller
Requirement fulfilled: Humanities
This course will introduce you to Italian American literature beyond the mafia and other common (mis)interpretations of everyday Italian American life that are often portrayed in film. Through verse and prose, you will read examples of female voices that sway towards the kitchen and family. You will consider tradition, culture, assimilation, gender, stereotypes and the male gaze. By the end of the course, you will have an understanding of the Italian-American woman’s experience and voice which will allow you to later expand your understanding of the male and female immigrant experience in America.
Prerequisite: ENGL 1112 or equivalent

ENGL 3111.E1D Intro to Memoir Writing (3 credits) E. Steiner
Requirement fulfilled: Advanced Writing
We each have a unique story to tell about our past as we remember it. A memoir takes real events from one’s life and conveys them through a fictional style of writing. This course consists of reading and analyzing popular memoirs while building the skills necessary to complete a memoir of one’s own. Literary styling and the ability to critique writing are used throughout the course.
Prerequisite: ENGL 1112 or equivalent

HIST 2285.E1D New Jersey History (3 credits) P. Mabli
Requirement fulfilled: Humanities
The history of the State of New Jersey from colonial times to the present.

HUMN 2281.E1D Foundation & Early History of Christianity (3 credits) D. Epstein
Requirement fulfilled: Humanities
The course will trace the foundation of Christianity and its growth through the reign of Constantine (306-337). Topics include origins of the religion within the Jewish tradition, the background of the Roman Empire, the early Christian/Pagan dialogue and persecutions, and its evolution into a state religion.

IBUS 2201.E1D Fundamentals of International Business (3 credits) R. Medaska
Requirement fulfilled: International Perspective/Business
Provides an awareness of the environmental and managerial aspects of international business. Explores the complexities and implications of exposure to international competition and technology.
MGMT 4243.E2D  Human Resource Management (3 credits) M. Goldfarb
Requirement Fulfilled: Business
Theories and practices of personnel administration formulation and application of personnel policies for a cohesive working force within an organization. Job analysis and evaluation, recruiting, selecting and training employees and executive development.

MKTG 2030.E1D  Introduction to Marketing Management (3 credits) R. Medaska
Requirement fulfilled: Business
The development of comprehensive marketing programs and managerial techniques, including assessment of the environment, target markets, role forecasts, advertising and promotional strategies, budgeting and marketing objectives, among other topics.

PHIL 2351.E1D  Medical Law and Ethics (3 credits) M. Rubin
Requirement fulfilled: Humanities / Social Science
This course is an introduction to the relationship between law and ethics applicable to the healthcare industry. Emphasis will be places on understanding and properly employing the patient-healthcare provider relationship, maintaining patient right-to-privacy considerations, examining various ethical issues in health care and understanding the parameters of liability and malpractice.

PSYC 2006.E1D  Emotionally Healthy Lifestyles (3 credits) C. Henry
Requirement fulfilled: Social Science
The purpose of this course is to provide students with an opportunity to examine stress at home, work, and in the community. We will explore the physical and emotional impact of stress on the mind and body. Effective and empirically supported coping strategies will be presented in detail.

SCIE 2008.E1D  Chemistry in Everyday Life (3 credits) J. DePalma
Requirement fulfilled: Natural Science
Designed specifically for non-science majors, this course explains the importance of basic chemical principles and the impact they have on our daily lives within a framework of relevant, real world applications. Included may be topics such as the nutritional basis of healthy living, medicines and drugs, pollution & the conservation of natural resources, and the agricultural production of food for an ever-expanding world population.

10 Week Courses: September 25 – December 3

COMM 3314.E2D  Research in a Digital World (3 credits) E. Curtis
Requirement fulfilled: Communications / Public Speaking Sub.
Introduction to and manipulation of research and communication using the digital diversity of research materials. These will include using the Internet, the Library's online databases, the "invisible" web, library catalog sites, blogs, and wikis and probably more. Students acquire search and evaluation skill (learn to find, analyze and effectively use information sources). Each student will also be expected to write annotations and explanations of their sources; this material is spaced out over the semester so that assembly is made relatively simple and the process progressive. Each student will be engaged in a semester long project on a subject of their choice as guided by and approved by the professor.

ECON 1121.E3D  Macroeconomics (3 credits) L. Colon
Requirement fulfilled: Social Science / Business
The analytical and practical applications of microeconomics; problems of consumer behavior and demand; the allocation of resources of production; factor pricing and market conduct under pure competition, imperfect competition, oligopoly and monopoly.

ENGL 1112.E2D  Literature & Composition II (3 credits) B. Clark
Requirement fulfilled: University Requirement (English Composition II)
Expository writing; literary criticism; introduction to literary forms, especially drama, poetry and the novel; research techniques. Prerequisite: ENGL 1111 or equivalent
