

FDU Alert

The FDU Notification System will alert you if the University closes due to snow or other emergencies, or to communicate other urgent information to the campus community. It is not used to notify your family if something happens to you. Please enter contact information only for those individuals who should be alerted about emergencies that close the campus or similar notifications. If you do not want to receive non-emergency information, check the field "Exclude from non-emergency notifications."

****FDU Email, Home Phone, and Rave Phone are displayed if your information is on file. To be excluded from notification to any of these devices, place a check in the box to the right of the device information.****

Short Message Service (SMS) lets you receive a text message if you have an SMS-enabled cell phone and you are subscribed to an SMS service. The basic technique is to send an e-mail text message to the cell phone service provider, who then forwards the message to your phone. To receive SMS messages, you must enter the e-mail address of your phone (available from your provider) in the SMS field.

Please enter phone numbers without the dashes and only one email address per line. If any of the fields do not pertain to you, please leave them blank.

Name _____

Work Phone _____

Cell Phone _____

SMS _____

Parent/Significant Other SMS _____

Parent/Significant Other Phone _____
