The New Jersey Entrepreneurial Network, in association with Fairleigh Dickinson University and Einstein's Alley, is pleased to provide an opportunity for entrepreneurs to meet and talk directly with investors and experts who understand the unique challenges in clean/green technologies. Fairleigh Dickinson’s Sustainable Business Incubator within FDU’s Institute for Sustainable Enterprise is launching an ongoing network of green tech investors interested in fostering a sustained deal flow in environmental and energy technologies, green products, and ecological services. This event is specifically tailored to help New Jersey incubators and businesses who are looking to expand their clean/green technology businesses. Supporting organizations include: The New Jersey Entrepreneurial Network, along with Rothman Institute of Entrepreneurship, the New Jersey Institute of Technology Enterprise Development Center, Einstein’s Alley, the Meadowlands Business Accelerator, Rutgers’ EcoComplex, and the NJ Business Incubator Network.
