CHART YOUR WORLD OF POSSIBILITIES:
Transitioning to Green Forum

SUNDAY, OCTOBER 4th or TUESDAY, DECEMBER 8th
Lenfell Hall, Fairleigh Dickinson University, Madison Campus • 9:00 a.m. – 5:00 p.m.

Accelerate your transition to a green career. Attend a highly interactive, unique, one-day event with subject matter experts (SME’s) in sustainability and green jobs. Let experts help you explore your interests in industries, functional areas and show you how to chart your new green career.

PROGRAM
Prior to the Transitioning to Green™ Forum, complete the online Career Self Assessment. From it, our team of experts will construct a customized Transitioning to Green™ package of potential career paths and options linked to your unique profile, including your aspirations, interests, skills and capabilities. Results of the Transitioning to Green™ Career Self Assessment will be provided at the beginning of the one-day Transitioning to Green™ Forum.

Welcome and Introduction
Jeana Wirtenberg, Ph.D., President and CEO Transitioning to Green™

Charting Transitioning to Green™
Dynamic, interactive table exercise facilitated by sustainability Subject Matter Experts (SMEs). Through our innovative breakthrough process, you will be guided through the grey economy and into the new green economy, building bridges and finding your place in the larger context of this transformation.

Sector and Function Roundtable Discussions
Here’s your chance to interact with and learn from industry-specific sector and business functional experts in your choice of several, open space roundtable discussions. Hear more about career opportunities and SMEs’ personal experiences while learning more about tools, resources, and references available for you at the Forum.
